Compiled

**Holidays tend to** sneak up on everyone, but for horsemen, the fall is a busy season of readying the barn, land and animals for winter, while also preparing for end-of-year championships and finals shows. All of a sudden, the gift-giving season is upon us!

Don't panic and grab whatever the gas station has on the end display (although diesel gift cards are always nice). We have a few unique ideas to get gifts crossed off your shopping list so you can get back to stacking hay or sorting winter blankets.

## Stocking Stuffers

Small items can be even more impactful than large ones. This year, we have found some thoughtful and exquisite little presents.

### Bison Union Ranch Hand Coffee

Not only an appreciated and aromatic stocking stuffer, this coffee is a great host gift to keep on hand for last minute party invites. Maybe they will even ask you back to share their coffee.

This dark roast is blended in America in collaboration with Black Rifle Coffee Co., both veteran-owned businesses, and \$1 from each bag purchased goes to the Working Ranch Cowboys Association Foundation to help cowboys and their families in times of crisis. The Western packaging looks great without wrapping, it tastes great and your purchase does a good deed. Win. Win. Win.

### Horsewright Clothing & Tack Leather Horseshoe Coasters

Continuing the beverage and holiday entertaining theme, protect furniture with handmade Herman Oak leather coasters made with real horseshoes and nails for authenticity. While decorative, the shoe keeps the beverage on the coaster, and you can even customize them with initials or brands to make the gift even more personal.

### Schaefer Outfitter Elkskin Gloves

All horsemen and ranch folk can use a new pair of gloves. They tend to have a lot of singles under the truck seat and in the mud room, but a new pair of Schaefer Outfitter Ranch Hand Elkskin Gloves will put your friends in a matched, clean set.

Thick, soft elk hide is sewn in the U.S., with a keystone thumb, elastic wrist and warm Velux lining to keep hands toasty while operating gates and scooping feed. They are available in sizes extra-small to extra-large.

### Allred Leather Co. Key Chains & Card Wallets

A new keychain can jazz up your daily commute, whether it's to town or just to the back pasture. These stunning little some-things are handcrafted by a Texas leather artisan, one by one, and are available in themes to suit various Western styles – from cactus to floral tooling with a unique twist.

Recipients won't mind carrying around their keys with one of these attractive key fobs. Hair-on-hide stitched card wallets are a slim option for those folks that don't like to take everything with them. They're great for cowboys and cowgirls who have their hands full of reins, kids or groceries.

### Horsethief Canyon Supply Co. Soap

Ranching is a dirty business. These handcrafted soaps are packaged for gifting with clever names and are made in small batches with olive and coconut oils by a California ranch woman. The scents are reminiscent of your favorite things, including: One Trick Pony, with alfalfa and lavender; The Horse Thief, with oatmeal stout, pipe tobacco and cedarwood; My Darling Clementine, with sweet orange blossoms; and a men's scent, The Man in Black, with craft beer, cedarwood and charcoal.

### Pixio Smart Arena System

This product makes it easy to improve your riding performance without a full-time trainer, helpful friends or even recruiting your kids to hold the cell phone camera still and not film the ground during your ride. This system makes use of a camera mounted on a tripod, a watch that you wear and three beacons to triangulate your location and record your ride.

The robot camera keeps you in frame. The video can then be viewed at home or sent to your coach for feedback. The Pixio makes a great gift for the rider in the family, espe-

cially if you don't want to be the reluctant cameraman.
